Re: Academic and Research Achievements – Dr Didar Murad

Dr Didar Murad holds a PhD in Computational Science and Engineering. He is currently undertaking postdoctoral research as a Visiting Postdoctoral Research Fellow in Artificial Intelligence in Healthcare (Cancer Oncology) at the Faculty of Computing, Engineering and Science, University of South Wales, Cardiff, UK.

Under my academic supervision, Dr Murad is actively engaged in interdisciplinary research projects encompassing artificial intelligence, computational oncology, biomedical modelling, and data-driven healthcare applications. He has demonstrated strong analytical and computational expertise, independent research capabilities, scientific rigour, and a commitment to high-quality research. His active participation in collaborative research initiatives reflects his ability to address complex biomedical challenges through innovative computational and AI-driven methodologies.

In recognition of his academic qualifications, research competencies, and professional dedication, I am pleased to recommend Dr Murad for academic appointments and research-oriented positions in academia and industry. I am confident he will make meaningful contributions to scientific advancement, interdisciplinary collaboration, and institutional research excellence.

Please contact me if you need any additional information.
